

## **San Antonio Polymer Clay Guild Meeting**

### **Minutes**

**July 23, 2006**

#### **Reports:**

1. Membership— We now have 30 members, the newest one signed up at this meeting.
2. Treasurer's report— \$1573 Total
3. Library—new books have been added to the library; we will be starting a self-checkout the next time the library is available: a member wishing to check out a book will put their complete name on one line and their phone # on the next line then leave the card for Mary Ruth
5. Bottles of Hope— We collected 24 BOH in May.

#### **Joint meeting with SABOS:**

They are distributing the information to their guild about this meeting and will be attending to do the natasha beads. They will not be doing any jewelry finishing demos for us.

#### **ATC Cards:**

Since we are doing ATC-inspired nametags this month, we will be having an ATC swap. Make as many as you like but we were encouraged to make enough to trade with everyone (30). We will have the swap at the January meeting followed by a program showing us how to bind the cards into a book.

#### **Early Arrivals:**

If you arrive to the meeting location early, don't set up your tables and materials IF the employees are still cleaning. Wait until they are finished before setting up for the meeting.

#### **Bring and Brag:**

Maureen shared her book that she had made in Karen Veni's polymer clay book class.

Priscilla Earl showed us some pens and an egg that she'd been working on.

Jean Anne shared a complicated beaded necklace that she'd made.

Elizabeth showed us a necklace that Denise had made for her with her name on it.

Elizabeth was invited to participate in "Great Day, SA!" on August 2.

#### **Program:**

Susan showed us a brief demo on the basics of ATC cards and turning one into a nametag/necklace.
